KERATEK

Vivid, deep and intense colours that immediately catch the eye. An ultra-smooth and surprisingly compact surface creates a silky effect on first contact. Keratek, an innovative material born to surprise; a unique formulation guarantees beauty and performance in terms of durability and high resistance to thermal shock and impact. Keratek is NSF certified and is suitable for contact with food. Alluring, hygienic and easy to clean, it is a material that counts, in every micro-particle.

20 YEARS WARRANTY

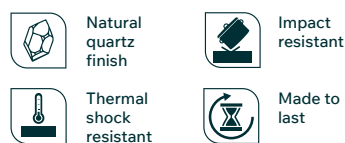

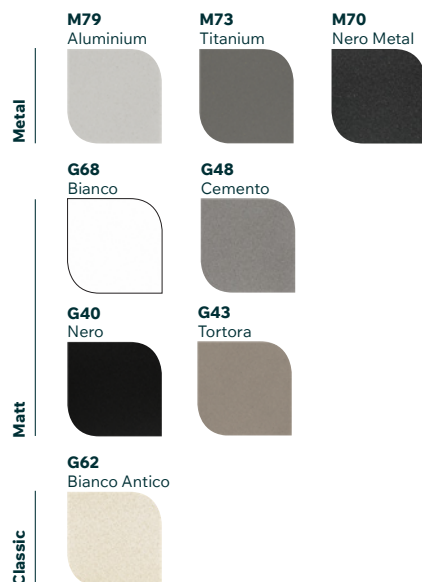

GRANITEK

Matter at your fingertips. Born from the desire to exploit the more technological nature of quartz in the kitchen, this is a substance that looks important. Ultra-textured to the touch, resistant to temperature changes and impacts, it was made to last. Thanks to the wide range of colours, available in three different finishes, no detail will be overlooked, either to the touch or to the eye:

Metal: The chicest of all. The many metal particles make the surface shiny, bright and sparkling.

Matt: Elegant and discreet. A refined finish, ideal for the most modern contexts.

Classic: The stylish finish that never goes out of fashion. A natural stone effect, enhanced by chromatic textures, perfect in every detail.

10 YEARS WARRANTY

Finishes

Experience the kitchen as a reflection of your own individuality. From the choice of configuration, accessories and colours, everything helps to channel your distinct personality. A family feeling that can be designed using metallic finishes that awaken a new way of looking at kitchen trends.

Elleci's World

Welcome to Elleci's world: we improve quality of life through innovative design solutions, thoughtfully and carefully crafted for people. Combining technology, Italian style and inventiveness, we elevate everyday experiences in kitchen.
